

FOR IMMEDIATE RELEASE

Helix™ Cable Tray Fitting Wins Best New Electrical Product for Industrial Applications at MCEE Tradeshow in Montreal, Qc

Saint-Jean-sur-Richelieu, Qc, May 7, 2015 - Thomas & Betts' Helix™ cable tray fitting received the award for 'Best New Electrical Product, Industrial Applications' at the recent MCEE trade show held in Montreal, Quebec last April 22 and 23.

"The Helix™ fitting was developed specifically for use in confined areas," said Claudine Crompt, Director of Marketing for Thomas & Betts Canada. "It allows installers to transition from horizontal to vertical cable tray in less time, while using significantly less space. Installers can now secure and organize cable runs without needing to position the cable tray assembly to make room for transitional fittings."

Part of Thomas & Betts' extensive, made-in-Canada, cable tray offering, the Helix™ fitting is available in left or right configurations in aluminum, pre-galvanized steel and stainless steel in 12-inch and 24-inch widths, with 6-inch side rails. The fitting is shipped pre-assembled and ready to install, saving substantial preparation time on site.

The Helix™ fitting is manufactured in Canada at the Thomas & Betts plant in Saint-Jean-sur-Richelieu (Iberville), Quebec. For more information about this product, download the [product sell sheet](#) at www.tnb.ca.

Thomas & Betts, a member of the ABB Group, is a global leader in the design, manufacture and marketing of essential components used to manage the connection, distribution, transmission and reliability of electrical power in industrial, construction and utility applications. With a portfolio of over 200,000 products marketed under more than 45 premium brand names, Thomas & Betts products are found wherever electricity is used. The company has a strong Canadian presence, with 8 manufacturing facilities across the country and headquarters in Saint-Jean-sur-Richelieu, Quebec. Approximately 80% percent of the company's products sold in Canada are manufactured in Canada. For more information, please visit www.tnb.ca.

The MCEE tradeshow is the largest trade show and conference in Canada for the mechanical, electrical and lighting industries is organized by the Corporation des maîtres mécaniciens en tuyauterie du Québec (CMMTQ), the Canadian Institute of Plumbing & Heating (CIPH), the Corporation of Master Electricians of Québec (CMEQ), and the Corporation des entreprises en traitement de l'air et du froid (CETAF).
