

Red Dot Weatherproof metallic boxes

Universal boxes and covers

Applications:

- Dry-Tite boxes and covers protect wiring devices, switches, electronic components and terminal blocks in dry, damp and wet locations
- Accessible wiring chamber provides a convenient location to maintain or change a system, pull conductors and make splices
- Junction box for branch conduits

Features/benefits:

- Aluminum alloy, zinc alloy and stainless steel springs provide increased corrosion resistance
- Die-cast construction and industrial design combine to produce a rugged protective enclosure for devices on many applications
- Clean cover edges provide good gasket sealing
- Precision-cast and machined surfaces permit safer wire pulling
- Clear UL, CSA and cubic content markings speed approval by inspectors
- Convenient mounting lugs for a variety of mounting methods
- Securely fastened mounting plates reduce costly callbacks

Standard materials:

- Boxes: Die-cast aluminum alloy
- Cover plates: Stamped aluminum alloy or die-cast zinc alloy
- Cover lids: Die-cast zinc alloy

Standard finish:

- Powder-coated finish

Compliances:

- UL listed (UL File No. E-28688)
- Boxes: CSA certified with factory-installed ground screw
- Covers: CSA certified
- Covers suitable for use in wet locations with covers closed
- CCB and CCT series covers suitable for use in wet locations
- NEMA 3R rated

IH3-1-LM

Accessible wiring chamber provides a convenient location to pull conductors and make splices in dry, damp or wet locations.

- Maximum cubic capacity
- Securely fastened mounting plates
- Corrosion-resistant materials
- Powder-coated finish
- Ground screw included
- Precision-machined threads
- Clear UL, CSA and cubic volume marking
